Overview
A picture is worth a thousand words! Artists want to express their feelings and emotions through their pictures, people love nature and want to capture its beauty. Photography is a medium of creative art and a photograph is a picture created with mechanical, chemical or electronic means.

Newspapers and news magazines need news events covered with supporting photos. Stock agencies always want pictures, you may sell your work for calendars or greeting cards. There are many advertising agencies who want photos to create ads for their clients. The number of new magazines continues to grow. And all of them need photos.

Models want their portfolios done, companies want to promote their products and services, people want their family functions covered, there is no end to the list.
